

KIRKSTON MELDER

UNDERGRADUATE

I am an enthusiast, flexible, creative and innovative character currently a college student majoring in information technology with a concentration in front-end development. I have the necessary theoretical background and am looking for an entry-level or internship employment in which to put it to good use. It is my sincere desire to contribute my knowledge, experience, and talents to the advancement of your esteemed organization, while getting real-world experience in the business world.
